STOCK-MARKET DASHBOARD

PREPARED BY:- TANMAY CHAVAN

ROLE:- BUSINESS ANALYST PROJECT

*PROJECT OVERVIEW :-

- The project analyzes stock market performance of AAPL, MSFT, NFLX, and GOOG from Feb–May 2023.
- It highlights variations in growth rate, market size, and market share among companies.
- The analysis reveals clear differences in profitability and financial strength.
- Time-based trends show a peak in March followed by fluctuations across companies.
- The dashboard provides a comparative view of market positioning and performance.

*DATASET OVERVIEW :-

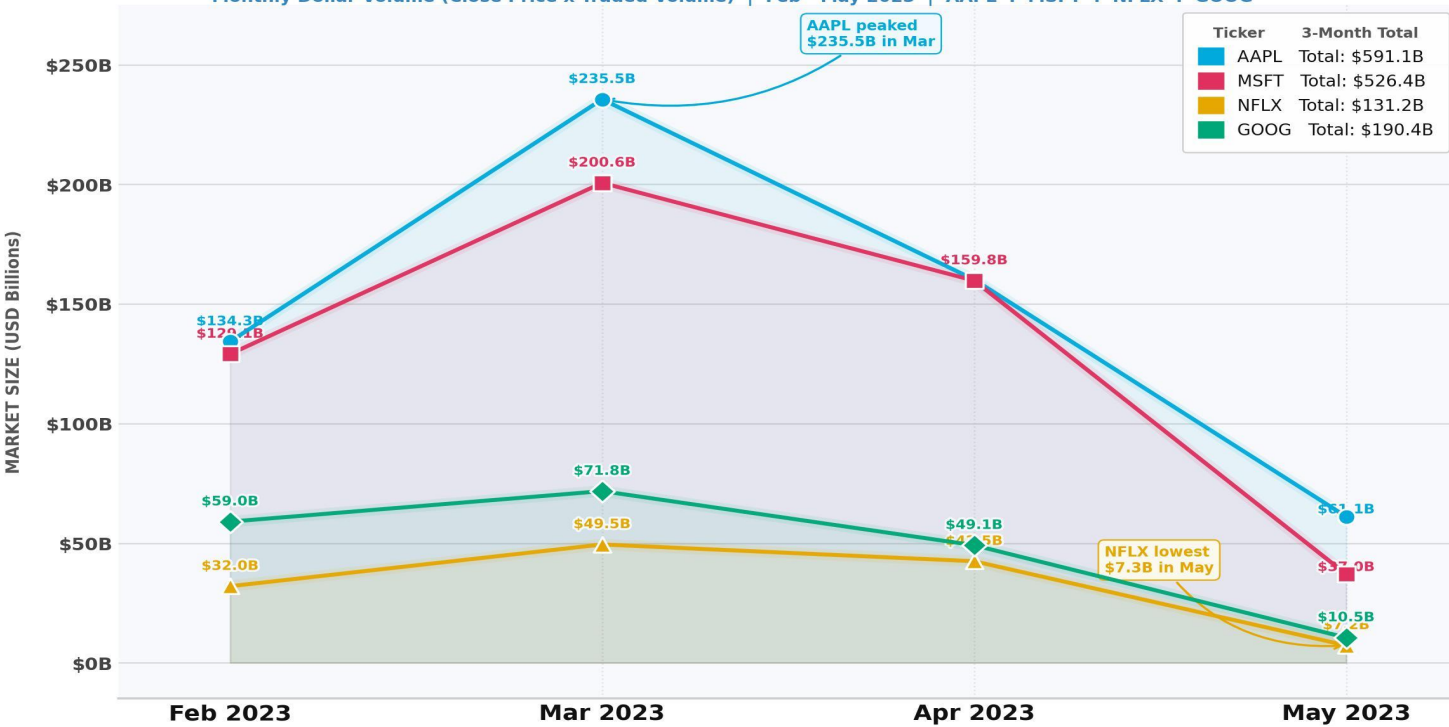
- Contains stock data from Feb to May 2023
- Includes companies: AAPL, MSFT, NFLX, GOOG
- Key fields: Closing Price, Volume, Growth Rate
- Derived metrics: Market Size, Profit, Market Share
- Data used for trend analysis and comparative insights.

*KPI CARDS :-

KPI'S	Values
Monthly Growth Rate	+17.07 %
Highest Market Size	$591.1B
Highest Profit	$1.33B
Largest Market Share	41.05 %
Largest Net Loss	$40.19

MARKET SIZE OVER TIME

Monthly Dollar Volume (Close Price x Traded Volume) | Feb - May 2023 | AAPL . MSFT . NFLX . GOOG

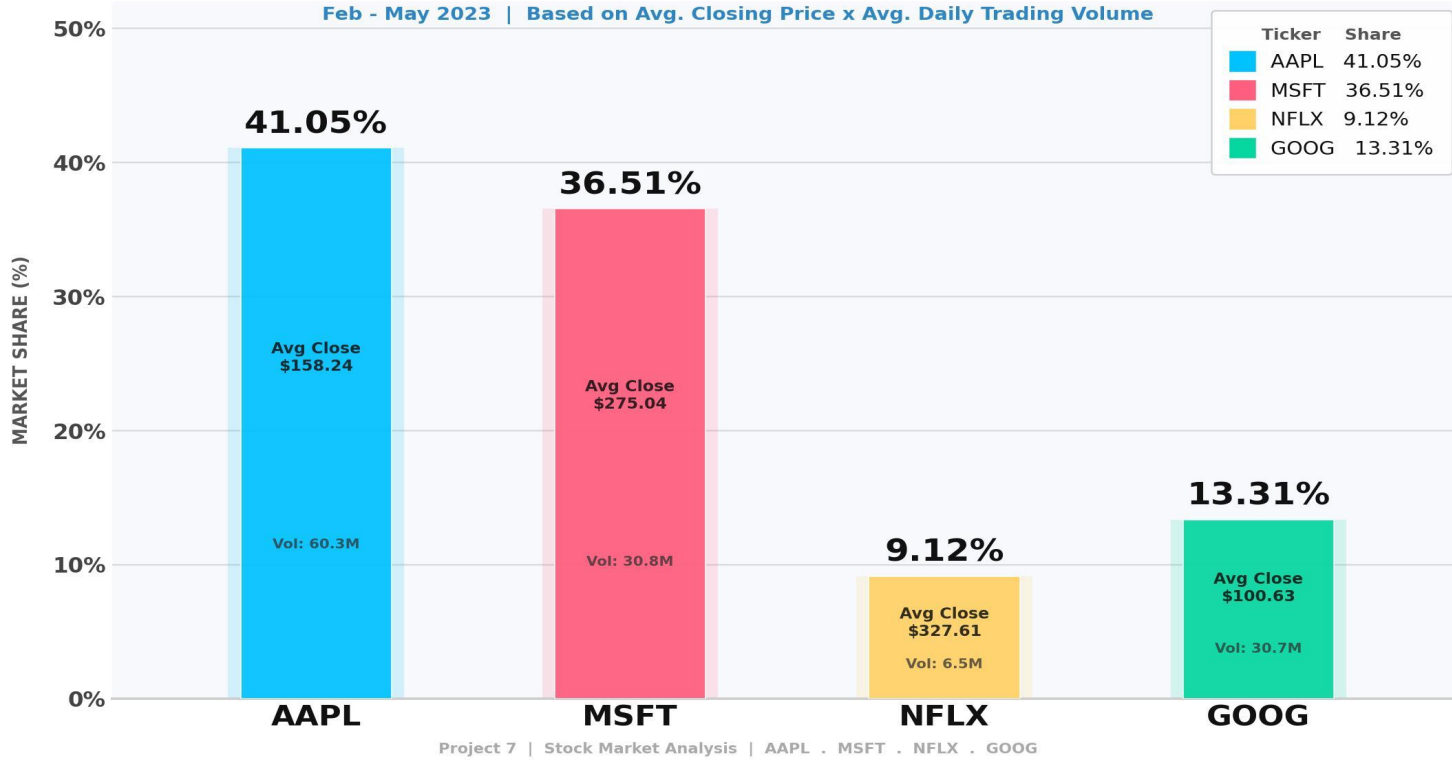


Project 7 | Stock Market Analysis | Market Size = Close Price x Daily Volume | Values in USD Billions

*INSIGHTS FROM MARKET SIZE OVER TIME :-

- **Peak Activity: All four companies reached their highest monthly dollar volume in March 2023, indicating a period of intense trading activity across the tech sector.**
- **Market Leader: AAPL consistently maintained the highest volume throughout the period, peaking at $235.5B in March.**
- **Sector-Wide Downturn: There was a sharp, synchronized decline in volume from March to May, with all tickers ending at their lowest levels in May.**
- **NFLX Volatility: Netflix experienced the most dramatic relative drop, falling from a high of $49.5B to a low of just $7.3B (an ~85% decrease).**
- **Total Volume Concentration: AAPL and MSFT dominated the quarter, accounting for over $1.1 Trillion in combined 3-month total volume.**

MARKET SHARE BY COMPANY

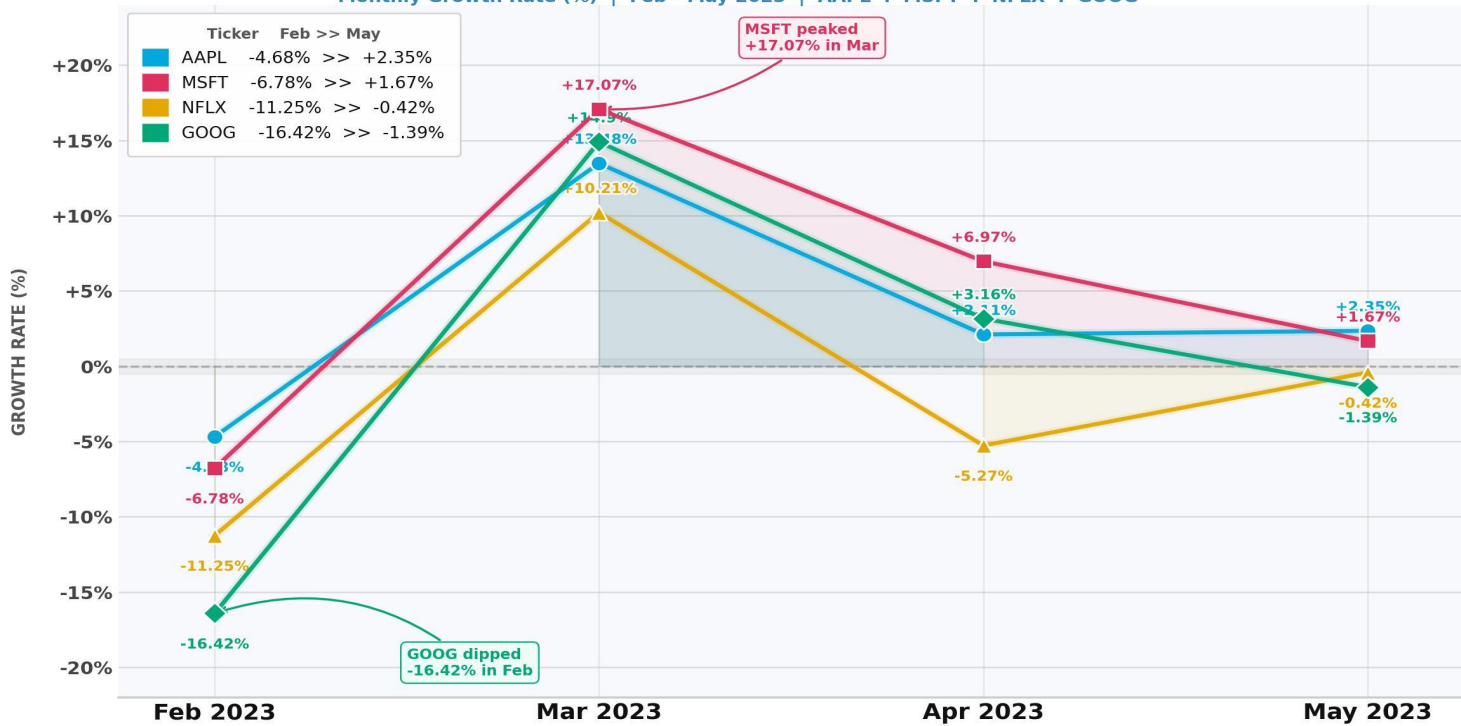


*INSIGHTS FROM MARKET SHARE BY COMPANY :-

- **Duopoly Dominance: AAPL (41.05%) and MSFT (36.51%) control a combined 77.56% of the total market share among the four peers.**
- **Price vs. Volume: MSFT has the highest average closing price ($275.04), but AAPL captures more market share due to significantly higher trading volume (60.3M).**
- **Niche Positioning: NFLX holds the smallest market share (9.12%) and the lowest trading volume (6.5M), despite having the highest stock price ($327.61).**
- **GOOG Efficiency: Google maintains a larger market share (13.31%) than Netflix with a much lower stock price ($100.63), driven by higher liquidity (30.7M volume).**
- **Concentration Risk: The heavy skew toward the top two players suggests that overall market health for this group is disproportionately dependent on Apple and Microsoft's performance.**

MARKET GROWTH RATE OVER TIME

Monthly Growth Rate (%) | Feb - May 2023 | AAPL . MSFT . NFLX . GOOG



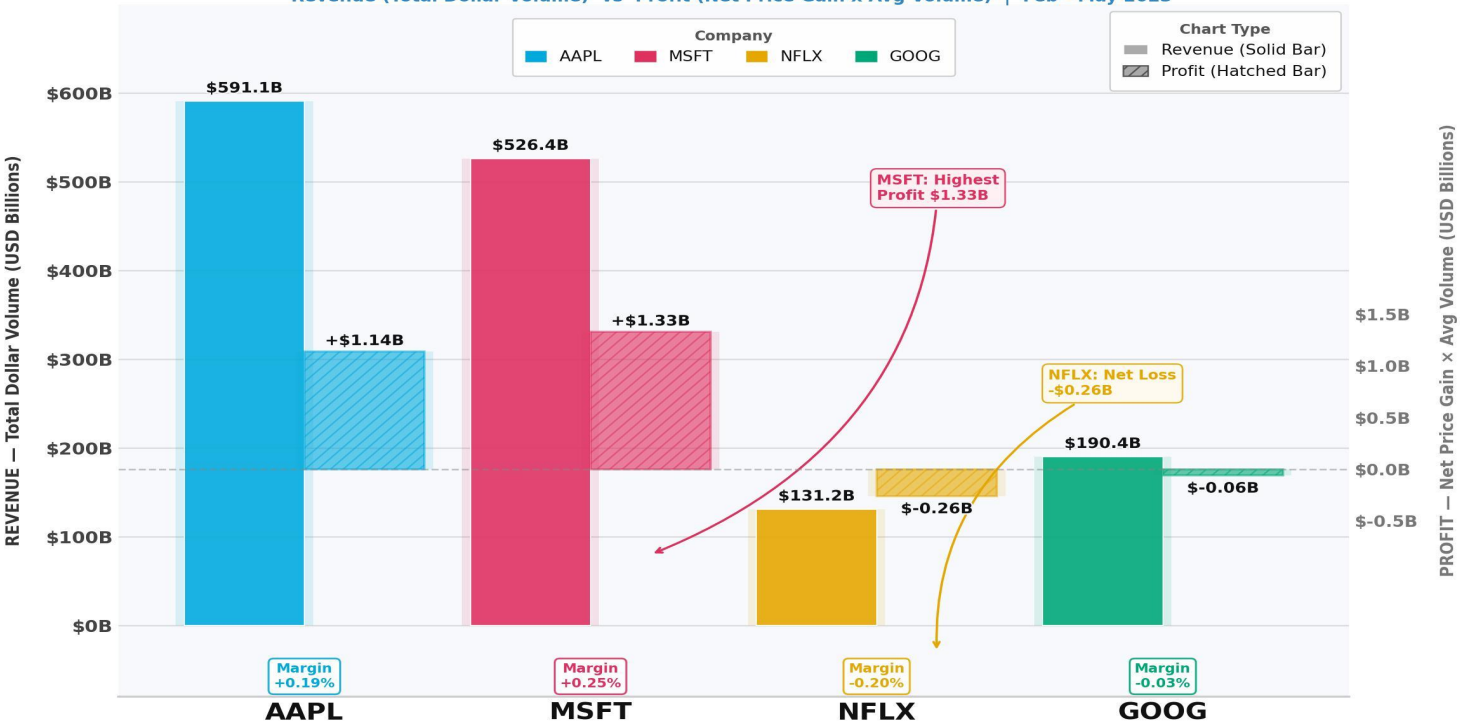
Project 7 | Stock Market Analysis | Growth = (Last Close - First Close) / First Close x 100

*INSIGHTS FROM MARKET GROWTH RATE OVER TIME :-

- **Universal March Surge: Every company saw a massive growth spike in March, with MSFT leading the pack at a +17.07% peak.**
- **Google's Recovery: GOOG started with the deepest dip in February (-16.42%) but showed the most aggressive recovery trend into March.**
- **May Stabilization: By May, growth rates across all four companies converged near the 0% to +2.5% range, suggesting a return to stability after a volatile quarter.**
- **Netflix's Struggles: NFLX was the only company to spend significant time in negative growth territory during April (-5.27%), lagging behind the broader recovery of the other three.**
- **Positive Momentum: Despite the mid-quarter volatility, both AAPL and MSFT managed to end May with positive growth rates (+2.35% and +1.67%), outperforming their February starting points.**

COMPETITIVE ANALYSIS

Revenue (Total Dollar Volume) vs Profit (Net Price Gain x Avg Volume) | Feb - May 2023

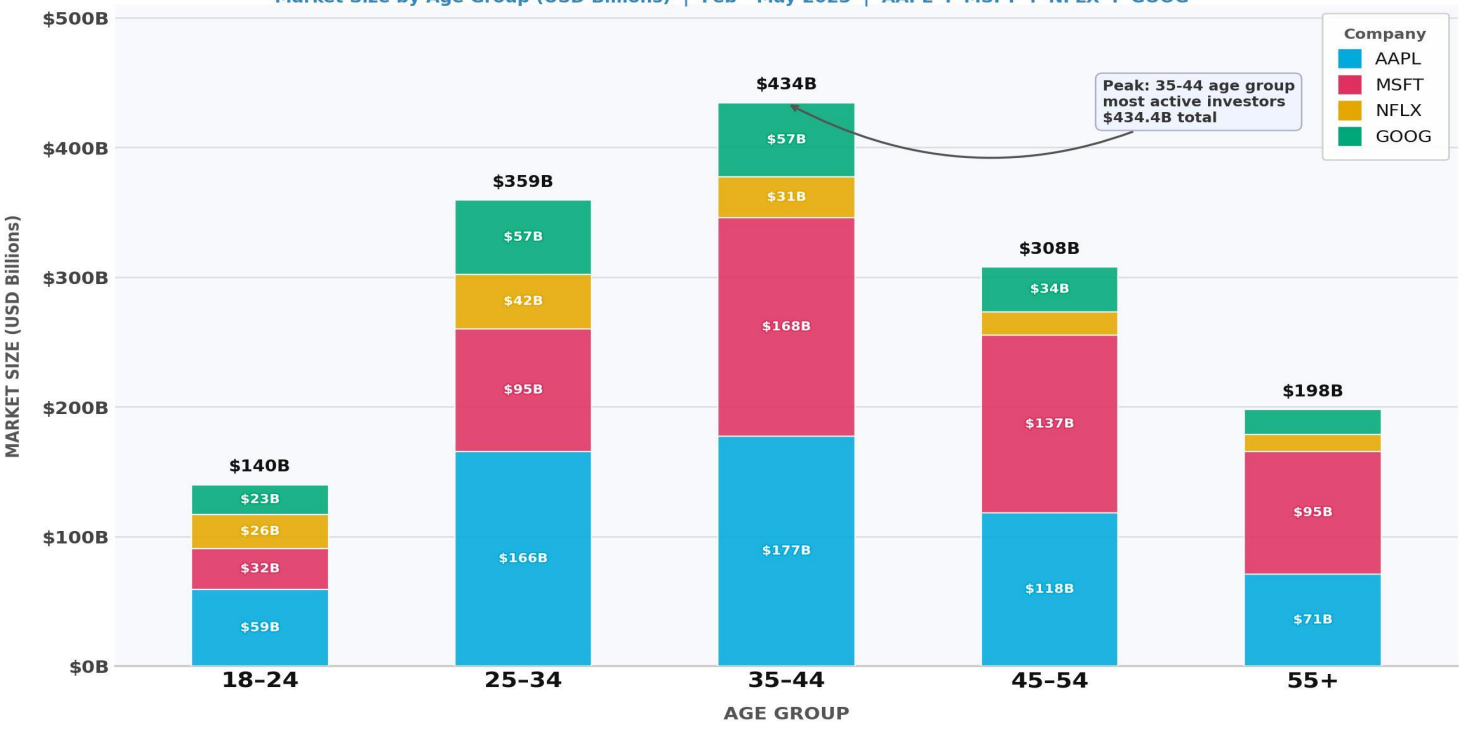


*INSIGHTS FROM COMPETITIVE ANALYSIS :-

- **Efficiency Leader: MSFT is the most "efficient" player, achieving the highest profit ($1.33B) and best margin (0.25%) despite lower revenue than Apple.**
- **Scale vs. Earnings: AAPL generates the highest total dollar volume ($591.1B), but its profit margin (0.19%) trails Microsoft's, showing a slight trade-off between scale and profitability.**
- **Loss Operations: NFLX and GOOG both operated at a net loss during this window, with Netflix seeing the deepest deficit at -$0.26B.**
- **Margin Divergence: There is a clear divide in the peer group; MSFT and AAPL are solidly profitable, while NFLX and GOOG struggled with negative margins (-0.20% and -0.03% respectively).**
- **Revenue Concentration: The "Big Two" (AAPL & MSFT) account for over 85% of the total revenue generated by this group.**

CONSUMER DEMOGRAPHICS

Market Size by Age Group (USD Billions) | Feb - May 2023 | AAPL . MSFT . NFLX . GOOG



Project 7 | Stock Market Analysis | Distribution based on investor demographic research weights x Total Market Size

*INSIGHTS FROM CONSUMER DEMOGRAPHICS :-

- **The Wealth Peak: The 35–44 age group is the most valuable demographic, contributing a total of $434.4B in market size.**
- **MSFT's Demographic Shift: Unlike Apple, which peaks with younger adults (25–44), Microsoft's market size remains high into the 45–54 and 55+ brackets, indicating a more mature investor/user base.**
- **Youth Gap: The 18–24 demographic is the smallest market for all companies ($140B total), suggesting these tech stocks are primarily driven by mid-career professionals.**
- **AAPL's Sweet Spot: Apple's largest single demographic segment is the 35–44 group ($177B), closely followed by the 25–34 group ($166B).**
- **NFLX Engagement: Netflix shows its highest demographic concentration in the 25–34 age group ($42B), representing a younger core audience compared to Microsoft's peak.**

HEAT MAP FOR REGIONAL ANALYSIS

Market Size by Region (USD Billions) | Feb – May 2023 | AAPL · MSFT · NFLX · GOOG

	AAPL	MSFT	NFLX	GOOG	TOTAL
North America	$307.4B 40.7% of row	$289.5B 38.3% of row	$63.0B 8.3% of row	$95.2B 12.6% of row	$755.1B
Europe	$118.2B 38.7% of row	$115.8B 37.9% of row	$31.5B 10.3% of row	$40.0B 13.1% of row	$305.5B
Asia Pacific	$106.4B 42.5% of row	$84.2B 33.6% of row	$23.6B 9.4% of row	$36.2B 14.4% of row	$250.4B
Latin America	$35.5B 46.0% of row	$21.1B 27.3% of row	$9.2B 11.9% of row	$11.4B 14.8% of row	$77.1B
Middle East & Africa	$23.6B 46.4% of row	$15.8B 31.0% of row	$3.9B 7.7% of row	$7.6B 14.9% of row	$51.0B
TOTAL	$591.1B	$526.4B	$131.2B	$190.4B	$1439.1B

Project 7 | Stock Market Analysis | Darker = Higher Market Size | Values in USD Billions | Row % = Share of Regional Total

*INSIGHTS FROM HEAT MAP FOR REGIONAL ANALYSIS :-

- **North American Anchor: North America is the primary revenue engine for all four companies, accounting for $755.1B (over 52% of the total global market size).**
- **AAPL's Global Dominance: Apple holds the largest market share in every single region, with its strongest relative grip in Middle East & Africa (46.4%) and Latin America (46%).**
- **The Europe-Asia Gap: Europe ($305.5B) remains a larger market than Asia Pacific ($250.4B) for this specific peer group, despite Asia's massive population.**
- **GOOG's Emerging Footprint: Google shows its highest regional share in the Middle East & Africa (14.9%), suggesting a stronger relative presence in developing markets compared to its share in North America (12.6%).**
- **MSFT's Secondary Lead: Microsoft is the clear #2 across all regions, maintaining a very consistent share ranging from 27.3% to 38.3%.**

*PROJECT CONCLUSION :-

- **AAPL leads in market size and market share.**
- **MSFT shows highest profit and strong growth peak.**
- **NFLX underperforms with negative profit trends.**
- **GOOG shows moderate but inconsistent performance.**
- **Dashboard helps in quick, data-driven decision making.**
